

Biography

**Professor Serge Jurasunas,
ND. MD (hc) MD (Hom)**

Blog.

naturopathiconcology.blogspot.com

**Pioneer in Naturopathy, Nutrition and
Integrative Oncology, Mitochondrial
Medicine, Naturopath, Homeopath,
Iridologist, Nutritionist, Researcher,
Philosopher, Spiritualist, Pacifist.**

**Education – Research Publication –
Clinical Practice – Innovation – Awards**

Born in France, 1942

**Member of the New York Academy
of Sciences**

**Albert Schweitzer Award
for Outstanding Achievement
in Medicine 2023**

The Story

In 1959 Serge Jurasunas **by himself, decided** to immigrate from France to the USA and lived in Los Angeles where two years later he had the good fortune to meet Dr. Bernard Jensen, a truly historical figure, a true legend within the realm of naturopathy, nutrition and iridology. A real pioneer, a philosopher and spiritual doctor as well, who influenced his life, destiny, who became his mentor and good friend until he died in 2001. Dr. Jensen teaches him all the secrets of nature and of the healing arts which today have no more meaning in our modern medicine. Serge Jurasunas is most impressed by how Dr. Jensen examined the iris of the eyes of patients and told them about their health condition. From this day Serge Jurasunas decided to become a naturopath-iridologist and to dedicate his life treating disease using natural methods and teach people how to keep healthy. Later he moved to Quebec Canada to found a school of naturopathy and to take a course in French language. Early in his practice he showed great interest to investigate what is cancer and how to treat this disease which led him to start investigating it. It was not easy to find some publications, but in Montreal in 1967 he was lucky to find the book by Dr. Max Gerson a Austrian medical doctor. A Cancer Therapy published in N.Y.C in 1846. It was a good beginning for many years this book is considered as the Bible of cancer for doctors of alternative medicine although at that time the word **alternative** did not exist. Natural medicine, naturopathy, biological medicine is the definition. Five years later in 1972 in Lisbon somehow he met with Mrs. Charlotte Strauss the daughter of Dr. Max Gerson and she invited him to speak the same year at the Congress of the **International Association for Cancer Victims and Friends International Association in New York (USA).**

Europe

After several years spent in Montreal he moved back to Europe and traveled first to Germany to learn more about iridology and cancer and discovered the Warburg theory on cancer that today after over 50 years finally emerged known as the Warburg Effect. In Germany he met with Professor Joseph Deck, considered as a world authority in iridology and offered him his important book "Principle of Iridology Diagnosis". He stayed in Paris for one year to study and collaborate, offering some iridology teaching at the French School of Naturopathy run by P.V. Marchesseau, biologist, known as the father of French Naturopathy. Marchesseau is a very knowledgeable man and a great teacher. Years later he is lucky enough to meet and learn from a scientific brain like Robert Bradford of American Biologic, one of the founders of Capital University of Integrative Medicine in Washington and pioneer in developing the oxidative dried blood test and the Live Blood Analysis. Bob opened a hospital of alternative Medicine for cancer treatment in Mexico and was busy doing research at the **Bradford Research Institute**. Alfred Vogel the famous Swiss doctor, the famous Catherine Kousmine a Russian doctor from Switzerland working with cancer during 50 years that he met at his home and spent time with her talking about her method and about the organic germanium of K. Asai in the treatment of cancer, the father of organic germanium. He also learned from reading many important books such as Max Gerson, Arnold Ehret's, Bernard Jensen, John Tilden, M. Platen, F.E. Bilz, G. Enderlein, Antoine Bechamps, N. Culpeper, Hans Niepper, Ralph Bircher Benner, Salmanoff, Paul Seeger one of the greatest of all cancer researchers. He also got acquainted with Chinese Traditional Medicine, Ayurvedic Medicine, Tibetan Medicine and Japanese Traditional Medicine to better understand the association between the body, mind and spirit and how to treat the body as whole. In fact Serge Jurasunas followed not only the **Hippocratic Oath** but also the Hippocratic principle of how to understand and treat the disease without harming. **Primum Non Nocere**. Over the past decades Serge Jurasunas built up a library rich with thousands of books including old medical books of pioneers such as the work of Hippocrates (18th century). Complete Herbal medicine of N. Culpeper (17th century) Hanneman (19th century) Abbot Kneipp (19th century).

On left Serge Jurasunas Mrs and Dr Jensen, PV Marchesseau on arrival at Paris Airport from Los Angeles. 1969

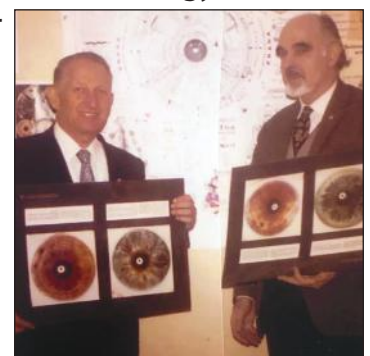

Serge Jurasunas became a world specialist and pioneer in naturopathic medicine and oncology, molecular medicine and pioneer at the global vanguard of innovative approaches in cancer treatment and has treated thousands of patients who have lived longer lives.

Education and Diplomas

Naturopathic Doctor (Canada 1969)
Registered as Certified Naturopath.(Quebec)
Homeopathic Medical Doctor (South Africa 1973)
Doctor of Naturopathic Medicine. Hahnemann Memorial
Institute of Health Sciences.
Post-Graduate Academy of Medicine. (USA 1982)

Further Studies

- 1985: Doctor of Indigenous Medicine by **Medicina Alternative International**. M.D by Examination and Thesis by the Authority of the Government Minister of Indigenous Medicine Sri Lanka.
- 1991: Diploma of Naturopath-Heilpraktiker. Libera Universita Italiana Di Naturopatia Applicada.

Dr. B.Jensen and P.V. Marchesseau at the French school of Naturopathy in Paris showing iris photos.

Memberships

Serge Jurasunas is a member of various professional associations and of Academies of Sciences and Medicine. He was elected a member of the New York Academy of Sciences (1972). Academician of Merit. Accademia Del Science Di Roma (1975): **The United States-National Congress of Naturopathic Physicians**. (Doctor of Naturopathic Medicine (1978): The German-American Academy of Medicine (1989). American Naturopathic Medical Association (1992): The American Academy of Anti-Aging Medicine (1995). The United States Homeopathic Association (1986)

Accreditation

- Registered as Certified Naturopathic Physician by the American Naturopathic Medical Certification and Accreditation Board.
- Louisiana Naturopathic Medical Association Board of Registration and Examination **Naturopathic Physicians Registry**. Serge Jurasunas registered as a certified Naturopathic Physician.
- Florida State Board of Homeopathic Examiners. Registered as a certified Homeopathic Physician.
- State of Minnesota. Board of Examination and Registration. Serge Jurasunas registered as a Naturopathic Physician.
- **International Confederation of Association of Natural and Alternative Medicine (CIAMAN-Madrid-Spain)** Serge Jurasunas is a co-founder and European President of the Scientific Commission of Naturopathy. The first world congress is held in Madrid in 1984 with about 4000 participants many from South and Central America and lecturers from 24 countries.

Professional Life

Former Professor of Metabolic Disease and Cancer. **Opened International University for Complementary Medicine**, (fully recognized by the government) Colombo, Sri Lanka, 1987.

1996 Nominated as Former Professor at Capital University of Integrative Medicine in Washington DC (USA).

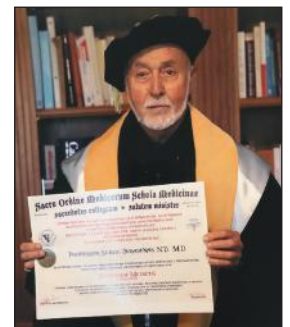

Capital University of Integrative Medicine, Washington, USA (former Professor). As pioneer, researcher, practitioner in the field of iridology, medical microscopy, innovation in natural treatments and other advanced techniques and in recognition in many years of public education, teaching is our honor to appoint you **University Professor** of Capital University of Integrative Medicine. (Nov 26. 1996). Professor of Naturopathic Oncology at Pan American University of Sciences and Natural Medicine (USA-Nevis) member of the Board Directors.

Pan American University of Natural Sciences & Medicine

Today you are recognized as one of the world leaders of Integrative Medicine, you have developed and taught many areas of alternative medicine and perfected some science such as Live Blood Analysis, Oxidative Dried Blood Test, Iridology, innovative treatments and contribute to open new conception in the field of integrative oncology. For the benefit of the University and to your honor we are proud to confer you the degree of **Doctor of Medicine (Honoris Causa) For Lifetime Achievement and 50 years of work**, October 2017.

Serge Jurasunas, European President of the scientific commission of Naturopathy of the world Congress of the International Confederation of the Association of Alternative, Natural Medicine. Madrid 1984.

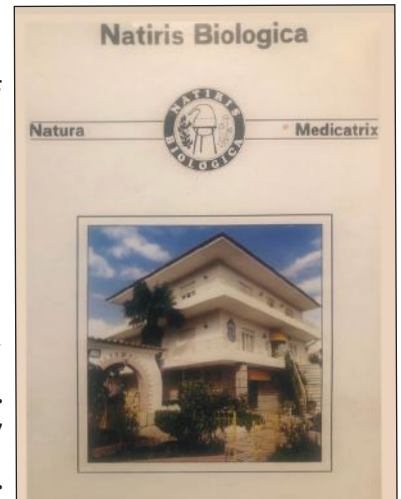

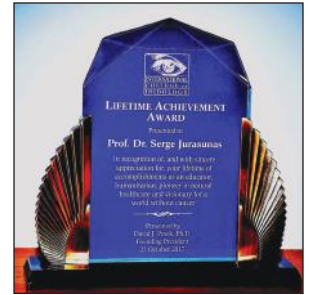

Lifetime Achievement Award

Lifetime Achievement Award in recognition, and with sincere appreciation for your lifetime accomplishment as visionary doctor for a world without Cancer. By the International College of Iridology during their International Congress held in October 2017, Orlando.

Holitherapias Clinic (Lisbon, Portugal 1978)

In 1971 Serge Jurasunas moved to Portugal where he opened a consulting office followed by a small clinic and in 1978 Serge Jurasunas opened a large clinic in Lisbon **Holitherapias**, a most renowned Institute of Naturopathic Medicine and Complementary Oncology focusing both the **true Naturopathic methods** and **Philosophy** together with nutrition, detox, and biological medicine the most up-to-date methods to treat chronic and degenerative disease. Holitherapias is the first clinic in Europe and the USA to use the organic germanium of Dr. Asai as therapy for degenerative disease and cancer. It was a breakthrough in cancer treatment. In fact by 1973 he already started using organic germanium, he is an innovator in alternative medicine. In 1975 he decided with his wife Lucie to start organic farming and bought 7 hectares of farmland to cultivate without chemical fertilizers and insecticides. He also raises cows to produce organic milk and sell raw milk.

In 1983 he opened a second larger clinic named **Natiris Biologica**, a three story house and 10.000 m³ land outside of Lisbon for more rooms, expanded facilities, more treatments, herb baths, neural therapy, detox program and other innovative therapies. It included an organic garden, a juice bar, to provide healthy food for the patients. The clinic specialized in exclusive treatment of chronic degenerative disease and cancer using non-toxic therapies and soon gained an international reputation with patients coming from several countries. Many doctors are from foreign countries to learn the anticancer methods of Serge Jurasunas. In many fields he was a visionary doctor 10-15 years ahead of the CAM community. Some exclusive and innovative treatments and diagnostics are part of the high rate of success obtained with patients. For instance 15 years ago he started to investigate the P53 tumor suppressor gene and apoptosis and systematically to test the P53 gene and other molecular markers with cancer patients. After accumulating some experience he experimented with a number of selected bioactive compounds that reverse P53 mutation to normal P53 tumor suppressor gene included in a new P53 treatment called **PSJ53 therapy**.

Serge Jurasunas a Innovator Doctor

By 1985 he started to formulate and develop a number of exclusive natural medications using herbs, minerals, enzymes, organic germanium, biocatalisors, extracts of fresh organs etc. He developed a new biological formula named L.39 and L.40 made from a variety of herbs with anticancer properties including Germanium, Hepar, spleen, Thymus, glutathione, Coenzyme in homeopathic preparations to be used as injectables i.m. Serge Jurasunas developed a new therapy after spending time studying the science of aromatherapy by first being invited by a French Laboratory, Phytorama specialized in research on essential oils and in manufacturing remedies from essential oils.

Serge Jurasunas with a group of cancer patients.

The **S.J. Therapy** consists of different ampules made from a mixture of herbs, oligo-elements and uses injectable i.m for different types of diseases. But also cancer. Other formulas developed by Serge Jurasunas like the famous **Apizellin** based on naturopathic principle containing 14 natural substances as support in cancer treatment including leukemia are today still manufactured. The famous **Osmotic herbs bath** developed by Serge Jurasunas contains a blend of about 18 herbs to detoxify, stimulate the immune system, increase energy levels and reduce tumor size. **Immunozelon** containing extract of thymus, liver, chlorella, spirulina, zinc, Vitamin C, to boost the immune system is at that time (1984) an innovative treatment (manufactured in a modern Laboratory in Germany). He also developed a new conception of Biological treatment by using stem cells in frozen liquid form for oral intake. The product called **Biorejan** is a blend of umbilical cord extract, spleen extract and Mesenchymal extract from porcine source and used exclusively for the patients of the clinic.

Founder - Natiris. 1972-2016

In 1972, Serge Jurasunas and his wife Lucie founded **Natiris**, a very small company in the beginning, with the purpose of offering natural products of high quality. Over the past decades Natiris became the leader in Portugal and one of the most important European Natural Products companies. Natiris is a company that produces and distributes some of the best nutritional supplement products in the world like Sun-Chorella, Zell-Oxygene, Biobran, Manda Enzyme and others. At the same time during the past 40 years Natiris developed different formulations manufactured in their own Pharmaceutical Laboratory like Apizellin, phytosomal liquid curcumin for therapeutic application and the famous **Cerebrum**, a new formulation for the brain including for elderly persons, students, others for prevention of Alzheimer's. For three consecutive years **Cerebrum** was elected the best product of the year in Portugal by the Portuguese government. **Cerebrum** is exported in Iran, Azerbaijan, Arab Emirates, Canada and Africa. In fact **Cerebrum** was developed ahead of any other company in Europe or in the world like the phytosomal liquid curcumin, years before it became available in the US market. The mission of Natiris, aside from offering the best quality products, was to offer education, publication (Portugal's first Natural Medicine magazine in 1974) and organization of seminars and congresses mostly under the responsibility of Serge Jurasuna's wife Lucie. Over the years Natiris opened five health food stores and the first health supermarket with a vegetarian restaurant and bakery. Most of the vegetables, fruits and milk came from our organic farm. After 43 years of hard work, the prestigious Natiris was sold in 2016. (Lucie, former professor of French philosophy became a great and respected business woman and has been selected as an honored member by International **Who's Who of Professionals for the year 2000**).

Lecifarma (Pharmaceutical Factory) 1982 - Formulation & Research

Lecifarma was founded as a separate company in 1982 by Serge Jurasunas' wife with the purpose of developing and manufacturing our original formula for the need of Natiris and offering some high nutritional supplementation and other remedies for the need of the clinic. We began as a very small laboratory, indeed the first time established in a small warehouse on the land of the clinic **Natiris Biologica**. Then the very small unit moved to a very large space with a new building. Today the Lecifarma has considerably grown to a working staff of 95 people including pharmacists and biologists and is still under major

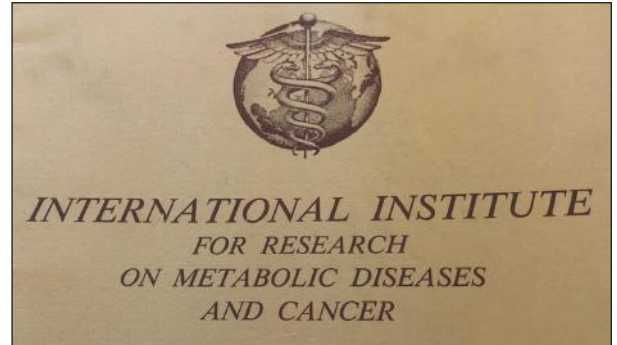

Project of expansion with more space and equipment.

development. Lecifarma manufactured products for other companies including raw materials and finished products for big Pharmaceutical Laboratories. Lecifarma collaborated with the Faculty of Pharmacy of the University of Lisbon sending its phytotherapy students to study herbal medicines and to learn how they are manufactured. Lecifarma is exporting vitamin formulas and other supplements in about 18 countries.

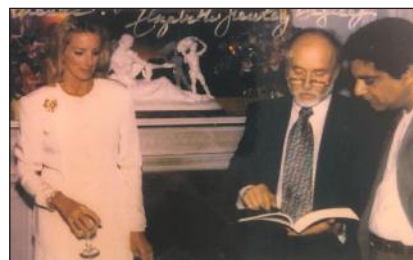

Professional Occupation

In 1983, Serge Jurasunas with a group of international doctors including one of his best and colleagues, the late Robert Bradford Ph.D. of American Biologic company, American Biologic Hospital, Rodrigo Rodriguez MD, director of the American Biologics Research Hospital in Mexico, Siegfried W. Bock, MD, surgeon from the Netherlands, a most brilliant researcher in the field of Metabolic Medicine, Henk Oswald MD. (Hom) Ph.D. from Netherlands, Bruce Halstead MD, immunologist, Gregory E. Caplinger M.D. Ph.D. from US and more, founded at Natiris Biologica as headquarters (also one headquarter established in Florida) **the International Institute for Research in Metabolic Diseases and Cancer** with Serge Jurasunas as Chairman. The objective is to do studies, clinical trials, research and promote new theories and methods to treat cancer based on non-toxic therapies. One year later the first seminar was set up in Ormond Beach, Florida, the following year in Orlando and in 1988 the 1st International Seminar on the **Whole view on cancer** was organized in Athens, Greece with Serge Jurasunas as the Chairman of the congress with the participation of 15 countries.

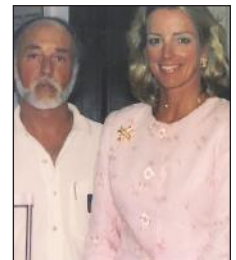

Serge Jurasunas organized several other international Congresses such as in France in 1973 with the participation of the famous A. Vogel, B. Jensen, Anne Wigmore from the USA, K. Asai from Japan who accepted the invitation and came over to present a new natural compound known as **organic germanium**. He also participated and also served as the **Chairman** in several International Congresses that took place in Sri Lanka, Cuba, Denmark, Romania, Italy, Germany, Greece, Hungary, England, Poland, Russia, Republic of China, Korea, etc.

Early in his practice already well known for his expertise in Iridology Serge Jurasunas is invited by Professor Lodispoto of the University of Roma to lecture at the International Congress of L'Altra Medicina organized in the city of San Remo Italy in June 1973 with 400 participants from 30 countries. At this congress several well known Italian magazines (Epoca, L'Europa) gave a long interview with Serge Jurasunas and about Iridology about iridology later reprinted by several international magazines in European magazines including the New Time in the US. It created a wave of interest for the work of Serge Jurasunas as Iridologist and naturopath and opened the door from famous celebrities looking to be examined by iridology by Serge Jurasunas including movie stars such the famous Gloria Swanson, diplomats, ambassadors, Comte, and the late King of Italy Humberto II. During a 4 year period, Serge Jurasunas becomes the doctor of the US Ambassador in Lisbon, Elizabeth Frawley Bagley.

Serge Jurasunas and the world renowned spiritualist D. Chopra invited by US Ambassador (on left) in the US Embassy for a private conference. Serge Jurasunas shown his last published book to D. Chopra

Serge Jurasunas and the US Ambassador in Portugal in the office of the clinic during a consultation.

Field of Research and Interest

For the past 45 years Serge Jurasunas is recognized as an authority in complementary cancer treatment including; oxidative dried blood test and Live blood analysis. He participated in the development of the 2 blood tests which is fully explained in this book (**Health and Disease Begin in the Colon Featuring Professor Serge Jurasunas Natural Medicine**). In 2025 he published in the Japan Medical Journal an article based on the observation of fresh blood of patients after taking Covid-19 vaccination, (see in the listed articles). He is also a world expert in P53 Tumor suppressor Gene, Oxidative stress and SOD enzyme, Germanium therapy, Mitochondria in Aging and cancer nutrition. He is considered the discoverer of **Dr. K. Asai** concerning the organic Germanium or GE-Oxy132 as one of the most important **discoveries** of the last century as a true natural compound with **biological and functional properties** to treat chronic disease and cancer. Serge Jurasunas began to include Asaigeranium in the treatment of patients of the clinic and at the same time developed some exclusive **new therapies**. In 1989 he published an important book in French after using the **Asaigeranium** with patients for 17 years. **Germanium-A response to Cancer and Aid** (reprinted in 1990).

Scientific Activities and Participation to Scientific Congress

He participated in some of the most important international and European Congresses of Alternative medicine, Anti-Aging, complementary oncology, and iridology in three continents. In 2006 he was invited by the **Vilnius University** Faculty of Medicine (Lithuania) as University lecturer to lecture 2 hours on **A Complementary and Alternative Lecture on New Avenues For Treatment in Oncology**. In 2002 he was invited to lecture at the International Symposium on Reactive Oxygen and Nitrogen Species - Diagnostic, Preventive and Therapeutic Values old in St-Petersburg Russia organized by the Research Institute for Physical Chemical Medicine, Moscow and the University of Pittsburgh, Center for International Studies PA. USA. Sponsored by the Health Ministry of the Russian Federation. He presented a paper **Therapeutic Application of a New Low Molecular Antioxidant Compound (Anoxe) in ROS Activity**.

Presented 54 papers at national and international congress in about 45 countries including the University of **Geneva, Faculty of Sciences and Sociology (for advanced students). Topic. Three hour lecture on the Sociology of Natural and Naturopathic medicine in the modern Society. Why I became a Naturopath, 1989.**

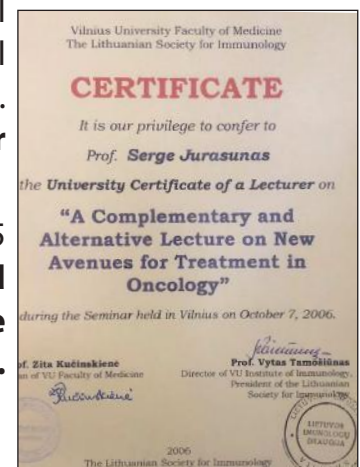

- **University of Vilnius Faculty of Medicine** invited as University Lecturer to conduct a two hour seminar **on Complementary and Alternative Lecture on New Avenues for Treatment in Oncology, (2006)**

Professor Serge Jurasunas an innovative European pioneer in the field of cancer research and treatment is coming to Northern Ireland to speak at a public seminar

Serge Jurasunas in St-Petersburg, Russia From Left. Lucie and Serge Jurasunas, Prof. Valerian Kagan PhD. D.Sc. University of Pittsburg, PA. USA next. M.A.Q Sidiq Ph.D Professor and chairman Sunny Downstate Medical Center, University of Brooklyn, College of Medicine, NY USA.

Diploma of University lecturer. Faculty of Medicine, University of Vilnius.

- **Invited by the American Association of Natural Medicine to lecture at the Congresso Medico Naturista Bionergetico, September 1986 and guest of honor of the city of Miami. As special guest Serge Jurasunas is honored to receive the Golden Key of the city of Miami.**

International Congress

- **International Congress of Natural Medicine. May 1973, Aix en Provence, France.** Set up by Serge Jurasunas.
- **Second Annual East Coast Cancer Convention of the International Association of Cancer Victims and Friends, Los Angeles, May 1974.** Topic: How to use organic germanium in the treatment of cancer.
- **International Congress on Acupuncture and Natural Medicine by Medicina Alternative. Colombo Sri Lanka, June 1985.** Topic: Organic germanium in the treatment of cancer.
- **World Congress of Natural Medicine, Havana, Cuba 1990** organized by the Open International University for Complementary Medicines (Sri Lanka) The Senate of the University appointed Serge Jurasunas the Chairman of the congress.
- **American Biologics-Mexico, Bradford Research Institute.** International Workshop July 1990. Topic: Up-date Oxidative Dried Blood Test correlation with Iridology.
- **World Congress on High Technology Medicine.** Topic: 1- Adjuvant Nutrition in Cancer, 2-Live Blood Microscopy Analysis, Switzerland 1997.
- **Universita Degli Studi Di Urbino (Italy 1997) Topic: A Biological Answer to the Treatment of Degenerative Disease and Cancer.**
- **7th International Iridology Symposium 2000.** London. Breast Cancer Theory, Profiling through Iridology, (available online).
- **American Biologics 12th International Symposium On Integrative Medicine, Lisbon, 2000**
- **American Biologics 13th International Symposium on Integrative Medicine, 2001, Malta.**
- **International Symposium on ROS and Nitrogen Species. Diagnostic, Preventive and Therapeutic Values. July 2002. St. Petersburg. Russia.** Topic: Therapeutic Application of a new Molecular Antioxidant Compound Anoxe in Ros Activity.
- **Third Monte Carlo Anti-Aging Conference. Application of Anti-Aging Medicine. September 2002** Topic: Aging start in the embryo.
- **The Instituto Di Medicina Biologica.** Where are we with cancer? A combination therapy using low molecular antioxidants in cancer treatment, 2006, Italy
- **The National Institute of Biological Sciences - Ministry of Research and Technology. Bucharest. Romania** invited as special speaker to present a paper on **Modern Approach in Life Sciences, (1998).**
- **8th Congress for Nutri-Phytotherapy, 2007, Brussels, Belgium.** Shark liquid cartilage extract as a natural anti-angiogenic adjuvant to conventional therapies.
- **Anti-Aging Medicine World Congress Paris 2008.** Lecture: Strategic Antiangiogenic Treatment. Shark Cartilage and cancer. **Workshop:** More Natural Approaches to Cancer Treatment. (available www.sergejurasunas.com).
- **Anti-Aging Medicine World Congress Paris 2009.** Topic: After cancer remission or cure what's next.

From left K Asai, a doctor., Serge Jurasunas next A Vogel. From right A wigmore and B. Jensen

- **Association of Korean Oriental Medicine Seoul. 11th International Congress of Oriental Medicine.** Early Detection and Prevention of Breast Cancer.
- **Bit's 4th Annual Congress and Exposition of Molecular Diagnostics.** Overcome Misinterpretation of Symptoms (Beijing, China 2011) Topic of Serge Jurasunas. **Clinical application of molecular markers, diagnostics in cancer and targeting therapies - Case studies.**
- **Japan Functional Food Research Association. The 4th International Workshop on Integrative Medicine. St-Ann College- Oxford University, 2004, Topic: The Science and Practice of Iridology in the Detection of Disease.**
- **Internationalen Kongress Fur Komplementare Onkologie (German Society of Oncology).** Topic, Clinical Application of Molecular Markers, Prevention, Diagnostic in Cancer, Targeting Therapies - Case Studies Munich, Germany, June 2012
- **The Jerusalem International Conference on Integrative Medicine, Topic: Clinical Application of Molecular Markers as Diagnostics in Cancer and Targeting Therapies- Case Studies/ Jerusalem. Dec 2012**
- **16th Congress of the International College of Iridology, Paris, France, 2015.**
- **5th International workshop Biobran, June 2017. Krakow, Poland** with the participation of several oncologists. Topic: **New Modern Approach to Treat Cancer.**
- **The Physician Round Table. Tampa, Florida, January 2016. Topic: Naturopathic Oncology- How to Understand and Treat Cancer From a Molecular Basis. (<http://sergejurasunas.com>)**
- **Medizinshe Wobe Baden Baden 2019. Kreskongress. Deutch Gesellschaft Fur Van de Velde Oncology. Topic: Targeting apoptosis and natural Killer Cells in Breast Cancer.**
- **Panace Hospital Rama II. (Bankok. Thailand (1 Symposium Healthcare, Innovative Advanced Natural and Medical High Innovation. 2025 Theme: Innovative Medicine for Treating Aging Diseases and Cancer. Topic of Serge Jurasunas, Asai Germanium as a Non Toxic Cancer Treatment**

Serge Jurasunas is honored by the Health Minister of Sri Lanka with a diploma.

In 1983 Serge Jurasunas is invited as main speaker at the World Congress of Holistic Medicine held in Colombo, Sri Lanka with the participation of 1400 delegates from 94 countries. At this occasion he is invited by the Health Minister of Sri Lanka to look after a number of cancer patients and to treat them at the Colombo South General Hospital. Also to teach doctors how to use medicinal plants and natural compounds as adjuvant support in cancer. The Minister of Indigenous Medicine honored Serge Jurasunas with a diploma of **Doctor of Indigenous Medicine** and the Health Minister sent him a letter of recommendation.

Publications

38 publications in magazines of Alternative Medicine, Nutrition from various countries include US, France, Germany (Co-Med) Belgium, Croatia, Romania, Germany, Spain, Portugal, Japan (Medical Nutrition, Health Letters, Japan Medical Journal), Korea, Ireland, England. Over 100 non-published papers and conferences. 54 presented papers in national and international congress.

Honors and Awards

Early in his life and for all the past work, development, innovative research, publications he has done Serge Jurasunas is honored with decorations and other prestigious academic awards

- **Silver Medal for Research and Invention** (France 1979) by the Societe D'Encouragement pour la Recherche et L'Invention. The medals are Awarded by the President of the French Academy.
- **Gold Medal** from the International Academy of Lutece of Arts, Letters and Sciences. (Award for Medical Research)
- Academician of Merit. Accademia Delle Scienza Di Roma, 1981.
- **The International Dag Hammarskjold Award 1981 for cooperation and the international solidarity in merit of medical research.** Other laureate of the ceremony include Dr. Prof. Sean MacBride Nobel Prize of Peace 1974. Bernard Benson, the well know Swedish movie star Liv Ullmann etc.
- **Academician.** Accademia Internazionale Di Pontzen of Arts, Letters and Sciences 1982 Italy.
- **Grand Academic Gold Collar for Scientific merit, 1983.** Internazionale Accademia Di Pontzen of Arts, letter and Sciences.
- The Gold Laurel in Medicine, 1984 Internazionale Accademia Di Pontzen of Arts, letters and Sciences.
- The Netherlands Laureate of Labor Decoration (Netherlands Laureate Van De Arber 1984. (created by the late King of Belgium Albert II. (Now under the auspice of the Queen Juliana.) Serge Jurasunas is also honored by been nominate Honorary Dean of the Decoration
- Honored with the Ignatz Von Pecezely Iridology Prize during the III National Congress of Iridology held in Sao Paulo, Brazil, 1996
- **La Grande Medaglia d'Oro Della Fondazione 1997.** Accademia Internazionale Di Pontzen of Arts, Letters and Sciences.
- **The Esculape Gold Medal for Medical Research, 1998.** Internazionale Accademia Di Pontzen of Arts, Letters and Sciences.
- **1983 Patron of the International Guild of Natural Medicine Practitioners (England)**

During the ceremony Serge Jurasunas receiving the International Dag Hammarskjold Award from the Pax Mundi Academy

Gold Esculape Medal of Medicine 1998

During the ceremony Serge Jurasunas receiving the diploma of Patron and member of the International Guild of Practitioners of Natural Therapeutics. On left the President on right his wife Lucie.

Albert Schweitzer Award

Awarded with the Prestigious Albert Schweitzer Award for Outstanding Achievement in Medicine 2023 by the Austrian Albert Schweitzer Society. Report of the ceremony published in Townsend Letter the Examiner of Alternative Medicine and in the Japan Medical Journal (Japan Journal of medical Science, 2023).

Dr. Albert Schweitzer (Nobel Prize in Peace) was probably one of the most saintly public figures and pioneers of early 20th century.

Personal Interests

Outside professional life, Serge Jurasunas is also a philosopher and deeply spiritual. In fact he is much influenced by Albert Schweitzer's life. For instance he is an admirer of nature and campaigned against war, weapons, the atomic bomb and cruelty to animals. His study of many books and traditions was important to influence him in a way to have a spiritual view and not only a physical view on life and with his patients. Books he read include those by Carl Jung, Deepak Chopra, (who he met several times) Kahlil Gibran, Theodore Monod, but also the Bhagavad-Gita and the Bible. Also Albert Schweitzer who greatly influenced his life. He often says we need spiritual pioneers and today more than ever. He also showed us that being a good doctor is firmly rooted in being a good human being as well.

On left Prof: Steiner General secretary of the Austrian Albert Schweitzer Society and Serge Jurasunas with the Award.

The Sovereign Order of St. John of Jerusalem-Knight of Malta.

Since 1978 he has been a Knight of the Sovereign Order of St.-John of Jerusalem-Knight of Malta-The hereditary Order www.sosj.org. (World headquarters in Malta) the oldest hospitalers order in the world (1048). Over the years he became Grand Cross, Bailiff, Grand Hospitallers and finally in 2007 was elected as the 76th Grand Master of the Order. This was not an easy take since earning this position through service, requires bringing spiritual protection and blessing during the ceremony held in many Church and Cathedral. But he also wrote many articles on life and spirituality in the journal of the SOSJ and the quantity of articles written so far will serve to publish a small booklet on spirituality. After approbation of the Council Serge Jurasunas decided to create the **Grand Master**

Grand Master Award

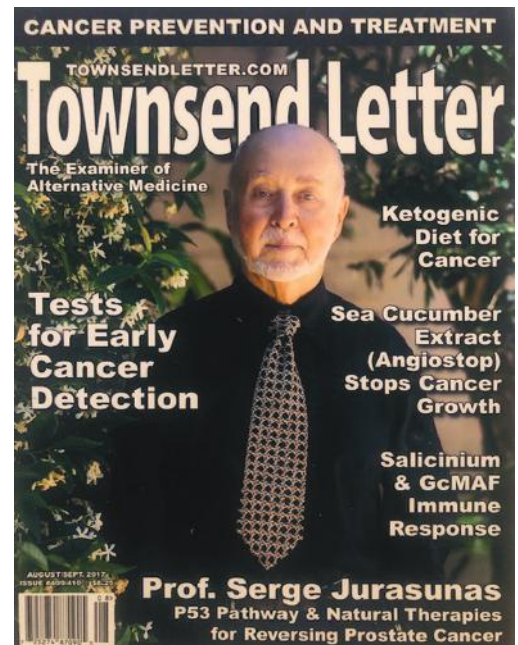

Award to reward the knights that have made special contributions to the Order. After a few years the Award is now extended to any one who has made contributions in different fields of our society, doctors who treat their patients with devotion and humanity.

Articles in Townsend letters the Examiners of Alternative Medicine (USA).

A very well known magazine read by over 10000 doctors all over the world.

1. Orthomolecular treatment of cancer. February/March 1999

21. **Serge Jurasunas Naturopathic Cancer Strategies.**

In 1981 Serge Jurasunas published his first book in the French language, Iridology a Natural Diagnostic. In 1988 he published in the French language a book called the lapacho and cancer. In 1989 he published in Switzerland his first book about organic germanium and cancer. Then he published three books in the Portuguese language and finally two important books published in the US.

1. **Health and Disease Begin in the Colon Featuring Professor Serge Jurasunas Natural Medicine.**
2. **Cancer Treatment Breakthrough. Immuno-Oncology Using Rice Bran Arabinoxylan Compound.**

The book includes examples of 23 clinical cases treated by the author. The book underlines the role played by Natural killer cells as important weapons against cancer using the anticancer efficacy of the Rice Bran Arabinoxylan compound (RBAC). Serge Jurasunas spent the past 30 years on investigating NK cells and about RBAC.

Congratulations and references received over the past decades.

I have known Dr. Serge Jurasunas for some years and consider him as a physician in advance of his time. I have admired his work with seriously and terminally ill people which has been rewarded with success in many cases where orthodox western medicine has failed.

- **Major Gordon Smith, USA.**

Dr. Jurasunas is an internationally respected physician whose research, clinical practice, teaching and writing are well-known and honored by the international community of scientists and scholars. He has lectured in many countries including my own where he is an honored member of the American Association for the Advancement of Sciences and an active member of the New York Academy of Sciences. I have known Dr. Jurasunas both personally and professionally for several years, and have deep respect for his scientific work, his integrity and his total devotion to science and medicine. I shared the lecture platform with him when he appeared as the principal speaker in an international scientific congress.

- Ralph Alan Dale, Ed. D., Ph.D, Diplo. Ac. Director, the Acupuncture Education Center.
Dialectic Publishing, Inc, Miami. USA.

Your many years of experience shines through clearly with your case studies and well thought protocols. You are an inspiration and a beacon of wisdom and hope in treating difficult diseases such as cancer.

- Peter Dimitrov, MSC. Vancouver, Canada.

Thank you for your incredible contribution in the field of Integrative Oncology.

- Dr Daniel Thomas. USA.

You have done and you will keep doing much for the health of mankind. We need several Serge Jurasunas on our planet.

- Rudy Lanza ND. Dean Libera Universita Italiana Di Naturopatia Applicata, Italy.

Yes, I did receive your 3 posters. Thank you very much. I will have them enlarged into posters for our clinic. Thank you for your work and sacrifice for humanity.

- Brian Severson. USA.

I have know Prof. Serge Jurasunas for some years since he visited Sri Lanka invited by Prof. Anton Jayasuriya of Medicina Alternativa to lecture at a world Congress. I have followed his clinical and research work with enthusiasm. At that time as **Minister of Health** for Sri Lanka I was interested in finding some direction to the question of the treatment of cancer. While in Sri Lanka Professor Serge Jurasunas treated several patients who are afflicted seriously and were terminally ill. His therapeutic applications relieved many patients at the hospital both in body and mind. Even some cases the malignancy was arrested. Professor Serge Jurasunas **is a visionary, a new doctor, with medicines for a new era.** I was indeed impressed with the result from what I have seen and his lecture ability.

- **Dr. W.P.G Ariyadasa. Former Minister of Health Government of Sri Lanka. (16.2.1992)**

Thank you very much for your article in the October of Townsend Letter for Doctors and Patients. **Cancer clinical cases. Protocol developed under the work of Prof. Serge Jurasunas.** I was very interested in reading your clinical research history. I would like to request the publication available on **Mitochondria DNA in aging and disease. With iridology evaluation.** I would like to use your work in my lectures at Colleges for Natural Health Sciences and also at Westminster University in London.

- Marian Baartz. Registered Iridologist. Raworth Clinic. England, 1999.

Thank you for your humanity, commitment and responsiveness.

- Beni, a cancer patient, Romania.

It sounds like you have a vast and very valuable experience in using antioxidant tools and approaches in clinical practice. Making an association of clinical effects of Anoxe with its antioxidant properties will be very important.

- Valerian E. Kagan. Ph.D. D.Sc. Professor and Vice-Chairman. Dept. of Environmental and Occupational health. University of Pittsburgh. USA, (2002)

I have tried reaching you by phone and email several time without success. Let me know of your scheduled visit in New York. I am looking forward to the prospect of hosting you, and discuss the proposed meeting on **antioxidants** in the years 2003/04. It was a pleasure meeting you and your wife in St. Petersburg at the International Symposium.

- M.A.Q. Siddiqui Ph.D. Professor and Chairman. State University of New York Downstate Medical Center. (2002)

First of all, I am highly appreciate for your acceptance to my proposal of joining to our society in the Board of directors. I am very glad we can work together for the development of the ISOM and oriental medicine. ISOM will certainly be enhanced internally and externally on account of your **deep insight and knowledge**. And it's my sincere hope you will contribute to further advancing of the society as a world renowned scientific society.

- Soon -bong Hong, President. **The International Society of Oriental Medicine, Seoul, Korea, September 2005.**

I believe you are one of the most original and the most productive personalities in the field of Integrative cancer therapy. I feel honored to collaborate with you and happy to participate with you in your research.

- **Joseph Brenner. M.D. Medical Oncologist. Head of the Oncology Institute at the Wolfon Hospital and founder, director of the New Hope Institute of Alternative Medicine, Israel.**

Dr. Jurasunas is another pioneer that will go down in history for his life saving conclusions and his selflessness in sharing his information with the world. We are fortunate to have Professor Jurasunas work in print.

- **Sue Vogan Ph.D. Radio show host. Author Lyme Disease Advocate, USA.**

We hereby acknowledge and commend you for your tremendous work in the world to practice teach and promote credible iridology and Natural Healing Methods. Dr. Bernard Jensen would be so proud of your accomplishments.

- **Ellen Tart Jensen. Ph.D., DSc. Calif. USA.**

I greatly admire your work and though I don't know you personally, I feel from your writings and work that you are a compassionate and caring doctor. I can only hope that you will continue to so bravely taking a stand against so called **Evidence based Medicine** when the evidence truly shows that systemic cytotoxic treatments are mostly ineffective.

- Mary Lynn, cancer patient, USA, January 2010.

I Have read your articles in the Townsend Letter over the last few years with great interest and admiration.

- Dr. Dan Kenner Ph.D., L. Ac (2017)

I would like to extend my utmost gratitude for writing your book titled **Cancer Treatment Breakthrough**. I do not know how I should express our appreciation for your dedication and hard work to write this book in the past three years. The book contains full scientific intelligence and true stories that show you helped tens of thousands of people suffering from difficulties. Your book would serve as the best guide to MDs and health professionals. I hope that your book will be read by many people worldwide.

(Extract from a letter sent to Serge Jurasunas by Mr. Yastuo Ninomiya President of Daiwa Pharmaceutical Co. Ltd. Japan. February 2021)

Thank you for your Anti-Aging Article. The article was well written and is an excellent protocol for doctors to recommend and consumers to follow.

- Jonathan Collin MD. Publisher Townsend Letter magazine of Alternative medicine. January 2023.

I have been following your work and your research is always brilliant. Thank you I will love a copy of your book.

- Patricia Peat (Oncologist nurse) **Cancer Options Consultancy. May 2023.**

I am writing to you today to offer my sincere congratulations. I Have just read about your Albert Schweitzer Award and I am delighted for you. Your award and speech made me feel so inspired and your dedication to your patients and your work is unbelievable and amazes me. This is very richly deserved award. You are an exceptional person and your commitment and dedication are an inspiration. And one of my blessings is having been introduced to a very special person and this person is you. I am **honored** to know you.

- Karen, patient. Ireland, October 2023,

I am **honored** to receive a message from a great doctor. I bought a copy of your book and learned a lot from it. And I am excited to get contact from a man that has met Dr. Asai whom I respect very much.

- Nakamura Atsushi MD. Chief Physician. Nakamura clinic Japan. February 2023.

I am so pleased to hear about your great honor. You are very deserving of this award since you are highly intelligent, work very hard and have great integrity. Keep up the important work.

- Dr. Burt Berkson, M.D, Ph.D. USA. (A great doctor, a friend and pioneer in alpha lipoic acid that unfortunately died in 2025)
